

Sleep Disorder Testing

Please refer to Medical Policy #305 Polysomnography/Sleep Disorders Testing on the Blue Cross and Blue Shield of Alabama's web site at

<https://www.bcbsal.org/providers/policies/final/305.pdf>.

To be considered for coverage in the Preferred Medical Doctor (PMD) service area, Polysomnography or sleep disorder testing must be performed in a Plan approved accredited sleep center or laboratory, and must be interpreted by a PMD board certified or board eligible sleep disorders specialist. The center or laboratory must be accredited by the American Academy of Sleep Medicine (AASM) or The Accreditation Commission for Health Care Sleep Labs Program (ACHC). Please see their web sites at <http://www.aasmnet.org/> or <http://www.achc.org/> for accreditation requirements.

Sleep studies performed outside a health care facility, i.e., home sleep studies, whether supervised, attended, or not, are non-covered.

Billing Information Regarding Location of Service

Sleep labs located within a hospital or on the campus of a hospital (main campus, not offsite) should be billed as an Institutional (UB-04) claim for all technical services. The physician doing the professional work would submit a Professional (CMS-1500) claim. If the hospital has a sleep lab at an off campus location (not on the main hospital campus) then it would qualify as a freestanding center (if it met all other requirements of a sleep lab). Then the services should be billed as a Professional (CMS-1500) claim and will be reimbursed a total global fee that would include all professional and technical components. The Professional (CMS-1500) claim must be filed under the name and provider number of the PMD interpreting physician. If a sleep lab is a freestanding center and meets all requirements, then the services should be billed as a Professional (CMS-1500) claim and will be reimbursed a total global fee including all professional and technical services. The Professional (CMS-1500) claim must be filed under the name and provider number of the PMD interpreting physician. Coverage is subject to member's specific benefits.

Please see the list of **Approved Hospital and Non-Hospital Based Sleep Centers/Laboratories**

If you have any questions, contact your Network Services Representative. See <https://www.bcbsal.org/providers/contacts/networkServices.cfm>.
