

**Adolescent Medicine (AM)**

Cervical Cancer Screening  
Glycosylated Hemoglobin (HbA1c) Test for Diabetics  
Appropriate Testing for Children with Pharyngitis  
Use of Narrow Spectrum Antibiotics for Patients with Acute Streptococcal Pharyngitis  
Use of Long-Term Control Drugs for Persistent Asthma

**Allergy / Immunology (AI)**

Use of Long-Term Control Drugs for Persistent Asthma  
Inhaled Corticosteroids as First Line Treatment of Asthma

**Cardiology (C)**

LDL Monitoring for Diabetes  
Beta Blocker Persistence Following a Heart Attack  
Chronic Kidney Disease: Lipid Tests  
Cholesterol Management for Patients with Cardiovascular Conditions  
Appropriate Monitoring for Angiotensin Converting Enzyme Inhibitors, Angiotensin Receptor Blockers Use  
Hepatic Enzyme Monitoring for Statin Use After Initiating Therapy  
Statin Treatment for Members with Diabetes  
Treatment of Coronary Artery Disease or CAD Equivalent: Use of Statins  
Adherence to Lipid Lowering Medication  
Adherence to Anti-Hypertensive Medication: Thiazide Diuretics  
Adherence to Anti-Hypertensive Medication: ACEI/ARBs  
Adherence to Anti-Hypertensive Medication: Calcium Channel Blockers  
Adherence to Anti-Hypertensive Medication: Beta-blockers  
Adherence to Anti-Hypertensive Medication: Other (Central-acting agents or Vasodilators)  
Annual monitoring for patients on persistent medications: Digoxin

**Colon-Rectal Surgery (CRS)**

Colorectal Cancer Screening

**Dermatology**

Follow-up Examination After Diagnosis and Treatment of Skin Cancer

**Emergency Medicine (EM)**

Appropriate Testing for Children with Pharyngitis  
Use of Narrow Spectrum Antibiotics for Patients with Acute Streptococcal Pharyngitis  
Appropriate Use of Antibiotics for Patients with Acute Otitis Media for Children 2 months- 12 years of age  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis  
Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis  
Use of Imaging for Low Back Pain

**Endocrinology (E)**

Diabetic Retinal Exam  
Glycosylated Hemoglobin (HbA1c) Test for Diabetics

LDL Monitoring for Diabetes  
Medical Attention for Diabetic Nephropathy  
Chronic Kidney Disease: Monitoring Calcium  
Chronic Kidney Disease: Monitoring for Anemia  
Chronic Kidney Disease: Monitoring Parathyroid Hormone  
Chronic Kidney Disease: Monitoring Phosphorus  
Hepatic Enzyme Monitoring for Statin Use After Initiating Therapy  
Osteoporosis Screening for Patients on Systemic Corticosteroids  
Pharmacologic Treatment of Osteoporosis  
Statin Treatment for Members with Diabetes  
Adherence to Lipid Lowering Medication

## **ENT**

Appropriate Use of Antibiotics for Patients with Acute Otitis Media for Children 2 months- 12 years of age  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis

## **Family Practice (FP)**

Colorectal Cancer Screening  
Mammography Screening  
Cervical Cancer Screening  
Diabetic Retinal Exam  
Glycosylated Hemoglobin (HbA1c) Test for Diabetics  
LDL Monitoring for Diabetes  
Medical Attention for Diabetic Nephropathy  
Beta Blocker Persistence Following a Heart Attack  
Cholesterol Management for Patients with Cardiovascular Conditions  
Appropriate Testing for Children with Pharyngitis  
Use of Narrow Spectrum Antibiotics for Patients with Acute Streptococcal Pharyngitis  
Use of Spirometry Testing in the Assessment and Diagnosis of COPD  
Use of Long-Term Control Drugs for Persistent Asthma  
Childhood Immunization: Measles, Mumps, and Rubella (MMR) and Varicella-Zoster Virus (VZV)  
Appropriate Monitoring for Angiotensin Converting Enzyme Inhibitors, Angiotensin Receptor Blockers Use  
Appropriate Use of Antibiotics for Patients with Acute Otitis Media for Children 2 months- 12 years of age  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis  
Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis  
Childhood Immunizations: DTaP/DT  
Chronic Kidney Disease: Lipid Tests  
Chronic Kidney Disease: Monitoring Calcium  
Chronic Kidney Disease: Monitoring for Anemia  
Chronic Kidney Disease: Monitoring Parathyroid Hormone  
Chronic Kidney Disease: Monitoring Phosphorus  
Glaucoma Screening in Older Adults  
Hepatic Enzyme Monitoring for Statin Use After Initiating Therapy  
Inhaled Corticosteroids as First Line Treatment of Asthma

Osteoporosis Screening for Patients on Systemic Corticosteroids  
Pharmacologic Treatment of Osteoporosis  
Statin Treatment for Members with Diabetes  
Treatment of Community Acquired Pneumonia: General  
Treatment of Coronary Artery Disease or CAD Equivalent: Use of Statins  
Use of Diuretics as First Line Therapy for New Starts on Antihypertensive Pharmacotherapy  
Annual Monitoring for Patients on Persistent Medications: Diuretics  
Adherence to Lipid Lowering Medication  
Adherence to Anti-Hypertensive Medication: Thiazide Diuretics  
Adherence to Anti-Hypertensive Medication: ACEI/ARBs  
Adherence to Anti-Hypertensive Medication: Calcium Channel Blockers  
Adherence to Anti-Hypertensive Medication: Beta-blockers  
Adherence to Anti-Hypertensive Medication: Other (Central-acting agents or Vasodilators)  
Diagnosis and follow-up of Prostate Cancer  
Appropriate Follow-up for Rheumatoid Arthritis  
Use of Imaging for Low Back Pain  
Annual monitoring for patients on persistent medications: Digoxin  
Annual monitoring for patients on persistent medications: Dibenzazepines  
Annual monitoring for patients on persistent medications: Barbiturates  
Annual monitoring for patients on persistent medications: Hydantoins  
Annual monitoring for patients on persistent medications: Miscellaneous Anticonvulsants

### **Gastroenterology (GE)**

Colorectal Cancer Screening

### **General Practice (GP)**

Colorectal Cancer Screening  
Mammography Screening  
Cervical Cancer Screening  
Diabetic Retinal Exam  
Glycosylated Hemoglobin (HbA1c) Test for Diabetics  
LDL Monitoring for Diabetes  
Medical Attention for Diabetic Nephropathy  
Beta Blocker Persistence Following a Heart Attack  
Cholesterol Management for Patients with Cardiovascular Conditions  
Appropriate Testing for Children with Pharyngitis  
Use of Narrow Spectrum Antibiotics for Patients with Acute Streptococcal Pharyngitis  
Use of Spirometry Testing in the Assessment and Diagnosis of COPD  
Use of Long-Term Control Drugs for Persistent Asthma  
Childhood Immunization: Measles, Mumps, and Rubella (MMR) and Varicella-Zoster Virus (VZV)  
Appropriate Monitoring for Angiotensin Converting Enzyme Inhibitors, Angiotensin Receptor Blockers Use  
Appropriate Use of Antibiotics for Patients with Acute Otitis Media for Children 2 months- 12 years of age  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis  
Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis  
Childhood Immunizations: DTaP/DT  
Chronic Kidney Disease: Lipid Tests

Chronic Kidney Disease: Monitoring Calcium  
Chronic Kidney Disease: Monitoring for Anemia  
Chronic Kidney Disease: Monitoring Parathyroid Hormone  
Chronic Kidney Disease: Monitoring Phosphorus  
Glaucoma Screening in Older Adults  
Hepatic Enzyme Monitoring for Statin Use After Initiating Therapy  
Inhaled Corticosteroids as First Line Treatment of Asthma  
Osteoporosis Screening for Patients on Systemic Corticosteroids  
Pharmacologic Treatment of Osteoporosis  
Statin Treatment for Members with Diabetes  
Treatment of Community Acquired Pneumonia: General  
Treatment of Coronary Artery Disease or CAD Equivalent: Use of Statins  
Use of Diuretics as First Line Therapy for New Starts on Antihypertensive Pharmacotherapy  
Annual Monitoring for Patients on Persistent Medications: Diuretics  
Adherence to Lipid Lowering Medication  
Adherence to Anti-Hypertensive Medication: Thiazide Diuretics  
Adherence to Anti-Hypertensive Medication: ACEI/ARBs  
Adherence to Anti-Hypertensive Medication: Calcium Channel Blockers  
Adherence to Anti-Hypertensive Medication: Beta-blockers  
Adherence to Anti-Hypertensive Medication: Other (Central-acting agents or Vasodilators)  
Diagnosis and follow-up of Prostate Cancer  
Appropriate Follow-up for Rheumatoid Arthritis  
Use of Imaging for Low Back Pain  
Annual monitoring for patients on persistent medications: Digoxin  
Annual monitoring for patients on persistent medications: Dibenzazepines  
Annual monitoring for patients on persistent medications: Barbiturates  
Annual monitoring for patients on persistent medications: Hydantoins  
Annual monitoring for patients on persistent medications: Miscellaneous Anticonvulsants

### **Geriatrics (G)**

Colorectal Cancer Screening  
Mammography Screening  
Glycosylated Hemoglobin (HbA1c) Test for Diabetics  
LDL Monitoring for Diabetes  
Beta Blocker Persistence Following a Heart Attack  
Cholesterol Management for Patients with Cardiovascular Conditions  
Use of Narrow Spectrum Antibiotics for Patients with Acute Streptococcal Pharyngitis  
Use of Long-Term Control Drugs for Persistent Asthma  
Appropriate Monitoring for Angiotensin Converting Enzyme Inhibitors, Angiotensin Receptor Blockers Use  
Chronic Kidney Disease: Lipid Tests  
Chronic Kidney Disease: Monitoring Calcium  
Chronic Kidney Disease: Monitoring for Anemia  
Chronic Kidney Disease: Monitoring Parathyroid Hormone  
Chronic Kidney Disease: Monitoring Phosphorus  
Glaucoma Screening in Older Adults  
Hepatic Enzyme Monitoring for Statin Use After Initiating Therapy  
Inhaled Corticosteroids as First Line Treatment of Asthma

Osteoporosis Screening for Patients on Systemic Corticosteroids  
Pharmacologic Treatment of Osteoporosis  
Treatment of Community Acquired Pneumonia: General  
Treatment of Coronary Artery Disease or CAD Equivalent: Use of Statins  
Use of Diuretics as First Line Therapy for New Starts on Antihypertensive Pharmacotherapy  
Annual Monitoring for Patients on Persistent Medications: Diuretics  
Adherence to Lipid Lowering Medication  
Adherence to Anti-Hypertensive Medication: Thiazide Diuretics  
Adherence to Anti-Hypertensive Medication: ACEI/ARBs  
Adherence to Anti-Hypertensive Medication: Calcium Channel Blockers  
Adherence to Anti-Hypertensive Medication: Beta-blockers  
Adherence to Anti-Hypertensive Medication: Other (Central-acting agents or Vasodilators)  
Diagnosis and follow-up of Prostate Cancer  
Appropriate Follow-up for Rheumatoid Arthritis  
Use of Imaging for Low Back Pain  
Annual monitoring for patients on persistent medications: Digoxin

### **Infectious Disease (ID)**

Appropriate Testing for Children with Pharyngitis  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis  
Treatment of Community Acquired Pneumonia: General

### **Internal Medicine (IM)**

Colorectal Cancer Screening  
Mammography Screening  
Cervical Cancer Screening  
Diabetic Retinal Exam  
Glycosylated Hemoglobin (HbA1c) Test for Diabetics  
LDL Monitoring for Diabetes  
Medical Attention for Diabetic Nephropathy  
Beta Blocker Persistence Following a Heart Attack  
Cholesterol Management for Patients with Cardiovascular Conditions  
Appropriate Testing for Children with Pharyngitis  
Use of Narrow Spectrum Antibiotics for Patients with Acute Streptococcal Pharyngitis  
Use of Spirometry Testing in the Assessment and Diagnosis of COPD  
Use of Long-Term Control Drugs for Persistent Asthma  
Appropriate Monitoring for Angiotensin Converting Enzyme Inhibitors, Angiotensin Receptor Blockers Use  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis  
Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis  
Chronic Kidney Disease: Lipid Tests  
Chronic Kidney Disease: Monitoring Calcium  
Chronic Kidney Disease: Monitoring for Anemia  
Chronic Kidney Disease: Monitoring Parathyroid Hormone  
Chronic Kidney Disease: Monitoring Phosphorus  
Glaucoma Screening in Older Adults  
Hepatic Enzyme Monitoring for Statin Use After Initiating Therapy  
Inhaled Corticosteroids as First Line Treatment of Asthma

Osteoporosis Screening for Patients on Systemic Corticosteroids  
Pharmacologic Treatment of Osteoporosis  
Statin Treatment for Members with Diabetes  
Treatment of Community Acquired Pneumonia: General  
Treatment of Coronary Artery Disease or CAD Equivalent: Use of Statins  
Use of Diuretics as First Line Therapy for New Starts on Antihypertensive Pharmacotherapy  
Follow-up Examination After Diagnosis and Treatment of Skin Cancer  
Annual Monitoring for Patients on Persistent Medications: Diuretics  
Adherence to Lipid Lowering Medication  
Adherence to Anti-Hypertensive Medication: Thiazide Diuretics  
Adherence to Anti-Hypertensive Medication: ACEI/ARBs  
Adherence to Anti-Hypertensive Medication: Calcium Channel Blockers  
Adherence to Anti-Hypertensive Medication: Beta-blockers  
Adherence to Anti-Hypertensive Medication: Other (Central-acting agents or Vasodilators)  
Diagnosis and follow-up of Prostate Cancer  
Appropriate Follow-up for Rheumatoid Arthritis  
Use of Imaging for Low Back Pain  
Annual monitoring for patients on persistent medications: Digoxin  
Annual monitoring for patients on persistent medications: Dibenzazepines  
Annual monitoring for patients on persistent medications: Barbiturates  
Annual monitoring for patients on persistent medications: Hydantoins  
Annual monitoring for patients on persistent medications: Miscellaneous Anticonvulsants

### **Nephrology (N)**

Diabetic Retinal Exam  
Appropriate Monitoring for Angiotensin Converting Enzyme Inhibitors, Angiotensin Receptor Blockers Use  
Chronic Kidney Disease: Lipid Tests  
Chronic Kidney Disease: Monitoring Calcium  
Chronic Kidney Disease: Monitoring for Anemia  
Chronic Kidney Disease: Monitoring Parathyroid Hormone  
Chronic Kidney Disease: Monitoring Phosphorus  
Statin Treatment for Members with Diabetes  
Annual Monitoring for Patients on Persistent Medications: Diuretics

### **Neurology (Nu)**

Annual monitoring for patients on persistent medications: Dibenzazepines  
Annual monitoring for patients on persistent medications: Barbiturates  
Annual monitoring for patients on persistent medications: Hydantoins  
Annual monitoring for patients on persistent medications: Miscellaneous Anticonvulsants

### **Obstetrics / Gynecology (OB)**

Mammography Screening  
Cervical Cancer Screening  
Prenatal Screening: Screening for HIV in Early Pregnancy  
Appropriate Work Up Prior to Endometrial Ablation Procedure  
Pharmacologic Treatment of Osteoporosis

**Oncology(On)**

Follow-up Examination After Diagnosis and Treatment of Skin Cancer  
Diagnosis and follow-up of Prostate Cancer

**Ophthalmology(Opth)**

Annual Visual Field Tests for Patients with Glaucoma  
Follow-Up After Diabetic Retinopathy  
Visual Field Test for Patients with Suspected Glaucoma

**Optometry (Op)**

Annual Visual Field Tests for Patients with Glaucoma  
Follow-up After Diabetic Retinopathy  
Visual Field Test for Patients with Suspected Glaucoma

**Pediatrics (P)**

Appropriate Testing for Children with Pharyngitis  
Use of Narrow Spectrum Antibiotics for Patients with Acute Streptococcal Pharyngitis  
Use of Long-Term Control Drugs for Persistent Asthma  
Childhood Immunization: Measles, Mumps, and Rubella (MMR) and Varicella-Zoster Virus (VZV)  
Appropriate Use of Antibiotics for Patients with Acute Otitis Media for Children 2 months- 12 years of age  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis  
Childhood Immunizations: DTaP/DT  
Inhaled Corticosteroids as First Line Treatment of Asthma

**Pediatric Pulmonology (PPD)**

Use of Long-Term Control Drugs for Persistent Asthma

**Plastic/Reconstructive Surgery (P/R)**

Follow-up Examination After Diagnosis and Treatment of Skin Cancer

**Preventive Medicine (PM)**

Mammography Screening  
Cervical Cancer Screening  
Diabetic Retinal Exam  
Glycosylated Hemoglobin (HbA1c) Test for Diabetics  
LDL Monitoring for Diabetes  
Beta Blocker Persistence Following a Heart Attack  
Use of Long-Term Control Drugs for Persistent Asthma  
Childhood Immunization: Measles, Mumps, and Rubella (MMR) and Varicella-Zoster Virus (VZV)  
Appropriate Use of Antibiotics for Patients with Acute Sinusitis  
Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis  
Childhood Immunizations: DTaP/DT  
Osteoporosis Screening for Patients on Systemic Corticosteroids  
Statin Treatment for Members with Diabetes  
Treatment of Coronary Artery Disease or CAD Equivalent: Use of Statins  
Cholesterol Management for Patients with Cardiovascular Conditions  
Use of Diuretics as First Line Therapy for New Starts on Antihypertensive Pharmacotherapy

**Public Health (PH)**

Childhood Immunization: Measles, Mumps, and Rubella (MMR) and Varicella-Zoster Virus (VZV)

Childhood Immunizations: DTaP/DT

**Pulmonary Diseases (PD)**

Use of Spirometry Testing in the Assessment and Diagnosis of COPD

Use of Long-Term Control Drugs for Persistent Asthma

Osteoporosis Screening for Patients on Systemic Corticosteroids

Inhaled Corticosteroids as First Line Treatment of Asthma

Treatment of Community Acquired Pneumonia: General

**Rheumatology (R)**

Disease Modifying Anti-Rheumatic Drug Therapy in Rheumatoid Arthritis

Osteoporosis Screening for Patients on Systemic Corticosteroids

Pharmacologic Treatment of Osteoporosis

Appropriate Follow-up for Rheumatoid Arthritis

**Surgical Oncology (SOn)**

Follow-up Examination After Diagnosis and Treatment of Skin Cancer

**Urology (U)**

Diagnosis and follow-up of Prostate Cancer
