WELLNESS TOOLS F O R YOU

BeHealthy.com Promotion Tool Kit

Providing health and wellness information is the first step to helping your employees better manage their health. By educating your employees about health and wellness, you create a "win-win" situation.

Benefits of Promoting Health and Wellness in the Workplace

- Healthier employees are more productive and miss less time at work.
- Since employees spend much of their time at work, the workplace provides a great opportunity to raise awareness about health and wellness.
- Developing a health culture can have positive, long-term results.

Blue Cross and Blue Shield of Alabama's BeHealthy.com website is a valuable health information resource. Encouraging your employees to take advantage of this web site and complete the health assessment, HealthQuotient™, is a critical step to engaging them in a wellness lifestyle. Their assessment is the key that opens the door to a variety of personalized health information targeted to their needs. Blue Cross provides the BeHealthy. com Promotion Tool Kit to help you promote this personalized health resource to your employees. The kit includes a plan for communication, promotion materials, a magnet and sample text for promotional e-mails.
